SKILLS

- Critical thinking
- Problem-solving skills
- Teamwork & collaboration
- Fluent in English, basic Dutch
- Adaptability & attention to detail
- Communication skills

PROFILE

Highly motivated junior software developer with a background in full-stack development and a passion for creating efficient, scalable solutions. Skilled in React, .NET, C#, Java, and cloud technologies like Azure. Eager to contribute to dynamic development teams, bringing strong problem-solving abilities, adaptability, and excellent communication skills. Seeking opportunities to leverage my technical skills in building impactful, user-centric solutions.

EXPERIENCE

Full Stack Developer

Elastacloud April 2023 - April 2024, Remote
Developed and maintained web applications using C#, .NET, React, Blazor, and Azure. Improved the overall performance of applications by optimizing both backend processes and frontend components.

- Developed user-centric features in React, reducing load time by 15%.
- Improved performance through database optimization and efficient API integration.
- Collaborated with cross-functional teams to ensure timely project delivery.

React and Java Developer

Solera August 2022 - November 2022, On-Site
Worked as a Java and React developer, building responsive and dynamic web applications using JavaScript, HTML, and CSS. Collaborated with the UI/UX team to enhance user interfaces and experiences.

- Built dynamic components using Java and React, improving user engagement.
- Collaborated with front-end and back-end teams to ensure consistency in development.
- Enhanced application performance through clean code and best practices.

○ **Developer Intern**

Mulhacen Software November 2021 - June 2022, Remote
Assisted in the development of a fully functional website using
HTML, CSS, PHP, and MySQL. Worked with senior developers to
deliver solutions while learning industry best practices.

- Developed and maintained front-end features using
  HTML and CSS.
- Assisted in building backend logic with PHP, improving
  website efficiency.
- Contributed to database design and management with
  MySQL.

○ **Developer Intern**

Trevenque March 2021 - June 2021, Remote
Contributed to internal software development projects using
"Multibase." Gained experience in real-world software
development workflows and contributed to enhancing the
company's internal systems.

- Developed and maintained small-scale applications using
  Multibase.
- Worked with senior developers to debug and optimize
  existing systems.
- Improved internal tools, increasing team productivity.
